

a

Run the below code in your R console

1). Install devtools package

```
install.packages("devtools", dep=T)
```

2). Install ggtree and treeio

```
if (!requireNamespace("BiocManager"))
```

```
install.packages("BiocManager")
```

```
BiocManager::install("ggtree")
```

Note – this will install both ggtree and treeio

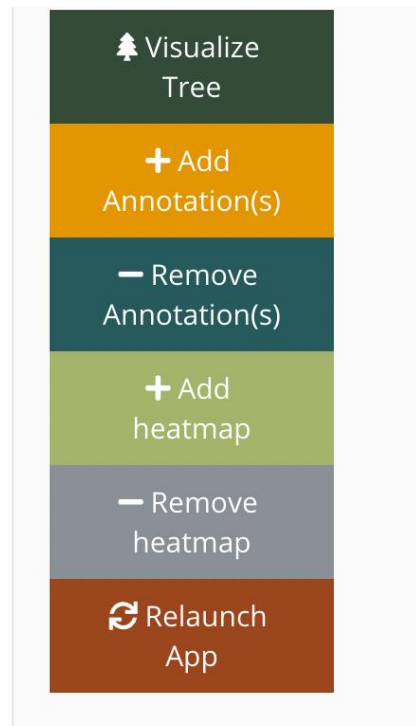

3). Install & launch the tinselR app

```
devtools::install_github("jennahamlin/tinselR")
```

```
library(tinselR)
```

```
run_app()
```
